Theme Installation Guide

Visit : <u>https://divithemecenter.com/mercury-child-theme-installation-guide/</u>

Author: Divi Theme Center

Minimum requirements:

WordPress Version	· 4 9 8
PHP Version	: 7.2.x+
MySQL Version	: 5.7.x+

https://wordpress.org/about/requirements/ Zip upload installation method (make sure uploads up to 2MB are allowed for your hosting):

Essentials :-

You need to have 'Divi ' from <u>www.elegantthemes.com/join/</u> in order to make our 'child theme work '

1.Installation Steps:

1. Login to your WordPress site administrator panel and head over the Appearances -> Themes & Click `Add New'

2.Choose the 'Upload' option.

- 3. First Activate Divi Parent Theme By Uploading a copy Available With You.
- 4. Install and activate copy of **`Child Theme** ` Zip after extracting the **`Main'** product Zip you have got as a product file .
- 5. Make Sure You upload only **'Child Theme** 'Zip under **Appearance -> Themes** and not the complete Zip file which have other files too.
- 6. After activating Child Theme at top you will see the notification as ' **begin installing plugin**' plugin name: '**one click demo import**'. Click on that link to install concern plugin.

Migration Almost Complete! Reserved Duplicator installation files have been detected in the root directory. Please delete these installation files to avoid security issues. Go to:Duplicator > Tools > Information > Stored Data and click the "Remove Installation Files" button <u>Take me there now!</u>	
click here	
This theme requires the following plugin: <u>One Click Demo Import</u> . <u>Begin installing plugin Dismiss this notice</u>	

- 7. Go To "**Appearance**". Click on "**Import Demo Data**" and Click on "Import Demo Data" Button. This will import Child Theme Content into your site.
- 8. Go to Divi and Click on "Child Theme Settings" and set additional settings as per need.
- 9. To Import Logo You Need Import JSON File : Go To "**Divi Theme Option**". Import JSON and Click on Import.

(In some case name of 'JSON' file may differ and it is JSON file we are referring available in the product Zip)

How To Add Custom Shop Module Section On Your Website / Page

Explaination

We have created ` **Mercury Shop** ` module for shop `**Style 1 to Style 5** ` that you can see in our Demo which you can applied on any of your existing page as well as new page by following the steps below.

Step 1:

Go To New Page / Existing Page - > Divi Builder.

D	Th	e Di	ivi E	Buil	der				+	¢	Ψţ.	©	ā	۵	:
÷	¢	9	ቁ	÷	:			Section							^
	+	٥	9	•	⊎	ā	÷	Row						^	
		+	¢	9	ቁ	亩	:	Mercury Shop							
								•							
								0							

Step 2:

Add ` **New Section**' and select module as ` **Mercury Shop** ` like you can see in the screenshot below.

📌 Posts 🔁 Media	This theme requires the following plugin: Begin installing plugin Dismiss this notic	<u>One Click Demo Import</u> . <u>:e</u>			©

How To Use Custom Shortcode On Your Website / Page

Explaination

We have created ` **woo_product_filter** ` shortcode that you can use on new page / existing page as needed and can add this shortcode either in code or text module as needed.

Shortcode: [woo_product_filter]

Explaination: This shortcode are used in text /code module like below example:

Text Module Settings	×
Content Design Advanced	
Text	^
Body:	
ADD MEDIA CALDERA FORM	Visual Text
B / <u>LINK</u> B-QUOTE DEL INS IMG UL OL LI CODE ONE FOURTH ONE FOURTH LAST TWO THIRD TWO THIRD LA	TAGS RAW ONE HALF ONE HALF LAST ONE THIRD ONE THIRD LAST TH THREE FOURTH LAST THREE FOURTH LAST BOX TOOLTIP
[woo_product_filter]	
Here you can create the content that will be used within the	~
Save & Add To Library	Save & Exit

Do the necessary ' WooCommerce Setting ' after child theme is setup and some of the basic steps is given below:

1. Enable Cart , Check-out, My-Account , and T & C Pages Under Setting As Below:

Go To - > WooCommerce - > Settings - > Advance Tab - > Page Setup

Add required pages for each from the drop-down and click save button as per the screenshot.

Cart page	• Cart	Add respective pages in dropdown and click save button
Checkout page	Checkout	× ▼
My account page	My account	x v
Terms and conditions	Select a page	*
Secure checkout	Force secure checkout	
	Force SSL (HTTPS) on the checkout pages (an SSL Certificate is required).	

2. Follow below to activate ' Register Account ' option at the Check-out / Login page :

Go To – > WooCommerce – > Settings – >Accounts & Privacy – > Enable Option Under Account Creation Section.

For Enabling Register Account At Login-Page:

Account creation	Allow customers to create an account during checkout	Enable 'register' account option	
	Allow customers to create an account on the "My account" page	at 'login' page by clicking this	
	Vhen creating an account, automatically generate a username from the customer's email address		
	When creating an account, automatically generate an account password		

For Enabling Register Account At Login-Page:

Account creation	✓ Allow customers to create an account during checkout	Enable this to activate create account option at the time of chekout	
	Allow customers to create an account on the "My account"	page	
	Vhen creating an account, automatically generate a username from the customer's email address		
	When creating an account, automatically generate an account password
